**I Think I'm In Love...**

...with these lunch boxes from [Lunchsense](#). A reader pointed them out to me just last week -- I had never heard of them before.

I love the different sizes to choose from (small, medium, and large), and the various containers. Not to put down [Laptop Lunch Systems](#), but some of us with Laptops have mused amongst ourselves that it really

would be nice to have lids sometimes. These lids look great: clear snap-top lids on all the food containers, and an easy screw-on lid for the 1 oz. dressing container and the liquid bottle.

And look how it all opens out into a placemat! Pretty nifty.

What do you think? What other great lunch boxes are there out there? Have you all been shopping for lunch bags/containers in preparation for back-to-school?

I've been amusing the idea of getting one of these:

They're compact like the laptop lunch, all the containers have lids and it comes with a drink bottle.
